

SOLID WASTE FACILITY PERMIT

1. Facility Permit Number:

19-AA-0856

2. Name & Street Address of Facility:

Waste Recovery and
Recycling Facility
4489 Ardine Street
South Gate, CA 90280

3. Name & Mailing Address of Operator:

H.B.J.J. Inc., a wholly-owned
subsidiary of:
USA Waste of California, Inc.
7314 Scout Avenue
Bell Gardens, CA 90280
Jack Pivovarovff, Facility Manager

4. Name & Mailing Address of Owner:

H.B.J.J. Inc., a wholly-owned
subsidiary of:
USA Waste of California, Inc.
7314 Scout Avenue
Bell Gardens, CA 90280
Les Bittenson, Vice President

5. Specifications:

PROPOSED

a. Permitted Operations:

☐
☐
☐
☐

Composting Facility (mixed wastes)
Composting Facility (yard wastes)
Landfill Disposal Site
Materials Recovery Facility

☐
☒
☐
☐

Processing Facility
Transfer Station, Large Volume
Transformation Facility
Other: _____

b. Permitted Hours of Operation:

Receipt of waste 4:00 am - 5:00 pm Monday - Saturday
Handling and Processing of Waste 24 Hours, Daily

c. Permitted Tons per Operating Day:

Total: 2,000 Tons/Day

-
-
-
-

Non-hazardous - Refuse 2,000 Tons/Day
Non-hazardous - Sludge N/A Tons/Day
Non-hazardous - Separated or Commingled Recyclables N/A Tons/Day
Non-hazardous - Inert N/A Tons/Day

d. Permitted Traffic Volume:

Total: N/A Vehicles/Day

-
-
-

Incoming Waste Materials N/A Vehicles/Day
Outgoing Waste Materials (for disposal) N/A Vehicles/Day
Outgoing Materials from the materials recovery operations: N/A Vehicles/Day

e. Key Design Parameters (detailed parameters are shown on site plans):

	Total	Disposal	Transfer	MRF	Composting	Transformation
Permitted Area (acres)	2.42 a	N/A	2.42 a	N/A	N/A	N/A
Design Capacity		N/A	2,000 Tons/Day	N/A	N/A	N/A
Max. Elevation (ft. MSL)		N/A				
Max. Depth (ft. BGS)		N/A				
Estimated Closure Date		N/A				

Upon a significant change in design or operation from that described herein, this permit is subject to revocation or suspension. The attached findings and conditions are integral parts of this permit and supersede the conditions of any previously issued solid waste facility permit.

6. Approval:

Approving Officer Signature

Richard Hanson, Chief
Name/Title

7. Local Enforcement Agency Name and Address:

County of Los Angeles
Department of Health Services
Solid Waste Management Program
2525 Corporate Place
Monterey Park, California 91754

8. Received by CIWMB:

AUG 1 1998

9. CIWMB Concurrence Date:

11-7

10. Permit Review Date:

11. Permit Issue Date:

SOLID WASTE FACILITY PERMITFacility Name: **WASTE RECOVERY AND RECYCLING - MRF**SWFP No. **19-AA-0856**

Page 2 of 5

12. Legal Description of Facility:

Lot No. 2 of Parcel Map No. 164-12-14 as recorded in the Map Book in the office of the Los Angeles County Recorder.

13. Findings:

- a. This Permit is consistent with the County Solid Waste Management Plan Triennial Review, Volume I: Nonhazardous Waste, March 1984 and Revision A, August 1985. A Finding of Conformance was approved on June 18, 1998 by the Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force. *[Public Resources Code (PRC), Section 50000 (a)(1)]*.
- b. This Permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB).
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the Local Enforcement Agency (LEA) on June 11, 1998.
- d. This facility is in conformance with applicable fire standards as determined by the Los Angeles County Fire Department, Fire Protection Engineering Section under contract to the City of South Gate. *[PRC, Section 44151]*.
- e. The following environmental document(s) have been filed and certified by the Lead Agency:
 - 1. Initial Study, PEA 1507, July 25, 1997.
 - 2. Negative Declaration, SCH No. 97091073, July 31, 1997.
- f. On 12/02/97, the City of South Gate Planning Commission made a written determination (Resolution No. 97-16) that the facility is consistent with the South Gate General Plan *[PRC, Section 50000.5 (a)]* and that surrounding land use is compatible with the facility operation *[PRC, Section 50000.5 (b)]*.

14. The following documents also describe the operation of this facility:

15. Self-Monitoring:

- a. The monthly monitoring reports are delinquent 30 days after the end of the reporting period
- b. All monitoring reports are to be sent to the Local Enforcement Agency
- c. Results of all self-monitoring programs as described in the RSI will be reported as follows:

Program:**Submittal Frequency:**

The quantities and types of hazardous wastes, medical wastes, or otherwise prohibited wastes found in the waste stream and the disposition of these materials.

The types and quantities of decomposable and inert wastes, including separated or commingled recyclables, received each day. The operator shall maintain these records on the facility's premises as required by current regulation. These records shall be made available to any Enforcement Agencies' personnel on request.

Copies of all written complaints regarding this facility and the operator's actions taken to resolve these complaints. (**Notification to the LEA within one day following the complaint is still required.**)

Reports of all special/unusual occurrences and the operator's actions taken to correct these problems.

The quantities of waste transferred each day to each of the disposal sites indicated on *Transfer Station Monthly Waste Disposal Monitoring Form* (Attachment A).

Monthly

(Due 15 days after the end of the reporting period)

Completed copies of the following Monitoring and Reporting Form are required by, and may be amended by, the Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force::

Solid Waste Characterization Data
(Attachment B)

Quarterly

Due the 15th of January,
April, July, and October.

16. LEA Standard Conditions:

1. Additional information concerning the design and operation of this facility shall be furnished on request of the Enforcement Agencies' personnel.
2. The operator shall notify the LEA, in writing, of any proposed changes in the routine facility operation or changes in facility design. In no case shall the operator undertake any changes unless the operator first submits to the LEA a notice of said changes at least 150 days before said changes are undertaken. The LEA is to determine the significance of the change and to make any necessary permit changes.
3. The Operator and/or owner shall notify the LEA of any plans to encumber, sell, transfer, or convey the ownership or operations to a new owner or operator, at least 45 days prior to the anticipated transfer, by written certification, including information deemed sufficient by the CIWMB and the LEA. If the facility will not be operated in compliance with the terms and conditions of this permit, the new owner shall be required to file an application for a revision or modification of this permit. [PRC § 4005]
4. The operator shall maintain a log of special/unusual occurrences. The log shall include, but is not limited to fires, explosions, discharges of unusual wastes, significant accidents and injuries, and property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The operator shall maintain this log at the facility so as to be available at all times to site personnel and to the Enforcement Agencies' personnel. Any entries made in this log must be reported to the LEA at once: Call the duty officer, County of Los Angeles, Department of Health Services, Solid Waste Management Program at (323) 881-4151.
5. The operator shall maintain a copy of this permit at the facility so as to be available at all times to facility personnel and to Enforcement Agencies' personnel.
6. This permit is subject to review by the LEA and may be suspended, revoked or modified at any time for sufficient cause.
7. The LEA reserves the right to suspend or modify waste receiving operations when deemed necessary due to an emergency, a potential health hazard or the creation of a public nuisance.

17. LEA Particular Requirements:

1. Operational controls shall be established to preclude the receipt and disposal of volatile organic chemicals or other types of hazardous or prohibited wastes:
 - A. The operator shall install and maintain an operational, calibrated radiation monitor at or in close proximity to the scales to detect radioactive materials, at all times, during the hours of receipt of refuse.
 - (1) Incidents of receipt of suspected radioactive materials, or warnings from the radiation monitoring equipment, shall be reported immediately to the Los Angeles County Department of Health Services, Radiation Management Program at (213) 738-4059 and the LEA at (323) 881-4151.
 - B. The operator shall conduct a waste load checking program as described in the Report of Station Information dated July, 1998. A generator identification number has been obtained: EPA I.D. No. CAL 000159419. The following Solid Waste Facility Permit conditions supplement those conditions:
 - (1) The minimum number of random waste loads to be inspected is two (2) per day.
 - (2) During the hours of operation for all transfer station activities, an attendant or attendants shall be present at all times to supervise the loading and unloading of the waste material. The working floor shall be under continual visual inspection by station personnel, such as spotters, equipment operators and supervisors for evidence of hazardous materials. Station personnel performing the duties required by this waste load checking program shall be trained and new employees shall be trained prior to assignment to a work station.

11-10

SOLID WASTE FACILITY PERMITFacility Name: **WASTE RECOVERY AND RECYCLING - MRF**SWFP No. **19-AA-0856**

Page 5 of 5

(3) The loads selected for inspection shall be unloaded in an area separate from the active working floor. Any hazardous materials thus found shall be set aside in a secure area for proper disposition.

(4) Incidents of unlawful disposal of illegal hazardous materials shall be reported to the Duty officer, Los Angeles County Fire Department, Health Hazardous Materials Division at (323) 890-4045.

2. The LEA reserves the right to require the operator to provide more stringent dust control measures, if the proposed dust control system proves inadequate or ineffective.
3. The maximum storage time for refuse is 48 hours. All putrescible solid waste shall be unloaded and transferred only within the enclosed processing building.
4. Construction demolition debris (inert material) and public self-haulers, except for loads containing putrescible waste, may unload only in specified areas outside of the processing building. The operator will implement effective measures to prevent litter and debris from migrating off-site from these tipping areas.

5c. **Specifications (continued from page 1)**

1. This facility has a permitted capacity of 2,000 tons of non-hazardous solid waste per operating day and shall not receive more than this amount of solid waste without a revision of this permit.
